A QUARTER OF A MILLION
COPIES IN AUGUST!

Sworn Circulation of The Times by
Months Since January, 1891.

STATE OF CALIFORNIA, ss.
COUNTY OF LOS ANGELES, ss.
Personally appeared before me, H. G. OTIS,
president and general manager of The Times-
Mirror Company, and George W. Crawford,
foreman of the pressroom of the Los An-
geles Times, who, being both duly sworn,
depose and say that the circulation of the
Los Angeles Times on the 31st day of August,
1891, was 6,750 copies; that the daily aver-
age circulation for said month was 6,713
copies; and that the daily average circulation
for the months given below was as follows:

For January, 1891, 5,339 copies
For February, 1891, 5,019 "
For March, 1891, 5,443 "
For April, 1891, 5,453 "
For May, 1891, 5,453 "
For June, 1891, 5,518 "
For July, 1891, 5,657 "
For August, 1891, 5,883 "

and, further, that said circulation was bona
fide in the strictest sense.

NOTES OF THE DAY.

AN innocent press scribe thinks that
when Milton wrote "Paradise Lost" he
must have been afflicted with "curvature
of the intellect."

PRODUCER men and farmers in this
section will be glad to know that Mr.
Franklin, of the weather office in this
city, has received permission from
Washington to continue his crop bullet-
ins throughout the year.

THE Council, in Committee of the
Whole yesterday, voted to let Capt.
Crawford have the use of the Macy-street
bridge for his new railroad. They
might just as well have voted him the
bridge. It is too narrow for a railroad
and for teams, too.

THE Chicago Inter Ocean thinks that
the platform of "The People's Party"
is intended to have "a plank" for the
lame and halt and blind of every class.
If you don't like the top side, waltz it
over; the platform turns with a crank,
and is equally good bottom-side up.

THE question of raising the assess-
ments of the southern counties has
become one of sectional partisanship.
If we may judge of the tone of the up-
country papers. They are all engaged
in patting their Board of Equalization
on the back and voicing the motto:
Soc tu tu!

THE Paris models have formed a
trades union, with the intention of
driving Italian models out of Parisian
studios. The French figurantes say
that their Italian rivals are political
spies. The unregenerate has always
thought that the artists themselves did
most of the spying.

THE bicycle is about to make its way
into military equipments. Cycling
schools are now recognized as part of
the garrison arrangements of Belgium.
The Minister of War has issued
orders for testing the value of the
cyclists' services by experimental man-
euvers. A specially-equipped detach-
ment left the garrison at Warre on the
17th of this month, followed a pre-
scribed route and returned to their
barracks within four days. On the
31st of August a second journey is to
be commenced. The War Minister
will encourage the military cyclists by
making a special allowance in view of
the exceptional fatigues which his
orders impose on them.

The sentence imposed by Justice
Austin yesterday upon the notorious
"mac" Powelson will serve as a warn-
ing to that class of contemptible
creatures who live on a woman's
shame and then justify their misdeeds
by poor slaves. Powelson, it will be
remembered, demanded \$5 from his
woman (to whom he is legally married)
and when the money was not forth-
coming he beat her on the head with a
heavy walkingstick. On conviction
of this offense on the testimony of
others than the one assaulted (for the
woman's evidence was discredited by
shield law) Powelson was sentenced to
serve 120 days in the chain-gang, and
then pay a fine of \$50 or be impris-
oned 200 days more. He deserves
every dollar and every day of it!

CAUTION.

Merchants and other business men
of this city will do well to keep an eye
open to the latest tactics of a little
gang of defeated strikers and law-
breaking boyotters, led by a fellow
named McGlynn from San Francisco.
These malcontents are going about, it
is reported, trying to involve and com-
promise citizens by obtaining their
signatures to some sort of a paper
having to do with the alleged object the
"settlement" of an old dispute between
the gang and THE TIMES. There is noth-
ing to settle; nothing to compromise;
the fight was long since made against
this office and won by it. The gang
were defeated in their attempt to con-
trol our business, and now again seek
to deceive citizens by lying mis-
representations, and involve them in a
fruitless effort to drag the strikers out
of the pit which they dug for them-
selves and plunged into. These men
deliberately left good situations on
THE TIMES over a year ago, and there-
by compelled its proprietors to employ
a new set of workmen. This is the
true state of the case, and we are
determined that citizens shall not be
deceived by the false statements of a
band of defeated malcontents and law-
less boyotters.

THE TIMES has no trouble with its
workmen, and there is no "trouble" to
settle and no compromise to be made,
so far as we and our employees are con-
cerned. The only trouble is with the
deluded men who brought it upon
themselves. This latest move is about
their last gasp, and is entitled to no
consideration whatever from any mer-
chant or other citizen.

CHRISTIAN SCIENCE IN THE SCHOOLS.

It is said that Christian science in
its ultra form has got such a hold on a
number of people in this city that they
are making it unpleasant for the pub-
lic schools. The parents of one child
sent word to the teacher that they did
not care to have their boy study physi-
ology. If he should become pretty
thoroughly informed about his stomach
and liver and other internal organs,
the first thing they knew he would be
imagining that there might be some-
thing the matter with them; whereas
all Christian scientists know that such
an idea would be an utter delusion.
In fact these good people questioned
seriously whether we have livers or
lights or any organs, or whether our
bodies have any real existence at all.
It is a toss-up with them whether all
supernatural material things are not
merely figments of the imagination,
which may be ignored and dispelled at
will. Another christian science fam-
ily sent word that they would like to
have their children excused from the
study of botany for much the same
reasons.

And the funny thing about it is that
the superintendent of the school, either
with instructions from headquarters or
the fear of raising a "holy war" ex-
cused the pupils from these particular
studies, as requested.

It seems to us that a pernicious
example was set in so doing. If Chris-
tian scientists hold views so diametrically
opposed to the whole system of
education in vogue, and are determined
that their children shall not be taught
according to present methods, the best
thing they can do is to establish
schools of their own, where they can
indulge in all the theatrical hallucina-
tions that they wish to adopt. It is
not reasonable to expect that the
whole curriculum of public instruction
shall be revised, set aside in exceptions
and turned topsy-turvy because a few
parents are afflicted with a fad in the
head.

If exceptions are made in favor of
one set of cranks they should be made
for all others, and when the multifar-
ious isms and dogmas are all recognized
there won't be much left of the public
schools.

MORE TIN-PLATE WORKS.

Coats & Co., iron and steel manu-
facturers at Locust, Point-Battineau,
propose to enlarge their plant, incor-
porating with it two or three tin-plate
mills. One of the members of the
firm said to a reporter of the Associ-
ated Press the other day:

In one sense we begin a new industry,
in another we simply enlarge that which
we are conducting. From all that we
have been able to learn we have reached the
conclusion that tin-plate can be made as cheaply
in the United States as in Wales, in
France, in Germany or in any other part
of the world. And a tin country consumes
more of that article than all the outside
world does, there is every reason why American
capital, ingenuity and labor should be
employed in producing it. It is no longer
a theory, but a well-established fact that
we can make metal plates at least as
cheaply in the United States as can any
of our foreign competitors.

I have a well-founded belief that this
country will not much longer depend on
foreign mines for an adequate supply of tin.
Aside from the great tin ore deposits of
South Dakota and California, there are
other deposits in the Blue Ridge Moun-
tains and foothills that will eventually be
unearthed. There is one question that
must be settled by experiment. Most of
the foreign mills use palm-oil in the process
of tinning, while some use tallow. The
latter is objectionable, because it gives a
yellow tint to the plate. It may be proved
that cottonseed oil can be substituted for
palm-oil. Is that case a new and very large
demand would arise for that product of
southern agriculture.

In one sense of the word all the re-
quirements of our exacting Democratic
contemporary, the Herald, will prob-
ably be met. Coates & Co. will no
doubt fill their own tin-plates. Thus
the tin horn, which begins at the tin
end, as we intimated the other day, is
growing.

In view of the many frightful acci-
dents which seem to attend balloon as-
censions now-a-days, it seems as
though the law ought to begin to throw
some restrictions about this sort of
foolhardiness. It is not asking too
much that the authorities should know

that a man is in his right mind before
he goes up into the sky, that he travels
with a sound balloon and is not going
to attempt so many pigeon-wings in
mid-air that he is likely to make a
pile-driver of himself. It would be as
feasible to legislate against reckless
ballooning as against any other wanton
risk of life.

AN INDUSTRIAL EXPERIMENT.

Milton George, editor of the West-
ern Rural of Chicago, who has been
making the grand swing around the
circle by way of the Northern Pacific
and down the coast, made a brief call
at THE TIMES office yesterday. Mr.
George, besides being a newspaper
man, is something of a philanthropist,
and is devoting much attention to the
working out of an industrial problem.
He gave a fine farm near Chicago,
valued at \$150,000, for the founding of
an industrial school for boys, and it is
now in full operation, being supported
mainly by public appropriations and
private donations. Incorrigible boys
are sent there, either by commitment
of courts or by private arrangements
with parents, and the object of the in-
stitution is to teach them a love for
useful occupations. There is no wall
around the place, and the youngsters
are kept there more from the effects of
moral suasion and because their lives
are made pleasant than by any other
means. There are 170 inmates at the
present time. They have their routines
of farm work, study and recreation,
and are taught something of the use
of tools in carpenter work and other
mechanical callings. Mr. George is
sanguine of the success of his enter-
prise, and believes that many useful
men will sometime attribute to their
turning aside from criminal paths.

ONE of the men who will now be
called upon to rise and explain, is Min-
ister Egan of the Chilean mission. It
is charged that he was the recipient of
substantial favors from Balmaceda,
and, in return made himself a most
ardent partisan of the would-be dic-
tator. At any rate he has succeeded
in eliciting the ardent hatred of the
insurgents, and now that they are the
government, it is believed that Min-
ister Egan's recall will be requested. Of
course the reports thus far received
may be strongly prejudiced and unfair.
As long as Minister Egan remained at
his post it was his duty to remain in
communication with the de facto gov-
ernment of Chile, and he would not
have been justified in espousing the
cause of the insurgents. But it will
be incumbent upon him to rise and
explain, and he will probably have to
take his walking papers besides.

THE Boston Herald says that the
late James Russell Lowell recognized the
closeness of his friend, Prof. Norton,
to himself by making him his literary
executor. All through life they
lived on terms of the greatest inti-
macy. Their studies were similar;
their tastes were alike; their political
beliefs were the same, and when they
were both editors of the North Amer-
ican Review they were in such entire
accord that it was as if one mind con-
ducted the work. It is most likely
that Prof. Norton will feel called upon
to use the opportunity offered him for
giving to the public a proper memorial
of his great and life-long friend, and
there is no one living who can give to
the public a biography which shall
more thoroughly fulfill the condition
required in the case of Mr. Lowell.

CHICAGO proposes to turn even her
misfortunes to account in a material
way. The striking of a pocket of gas
in the tunnel under the lake the other
day, which killed and maimed a num-
ber of workmen, has set the people to
talking about boring for natural gas
and light the city with.

Times' "Presto" Reception Today.
The press-rooms of THE TIMES will be
open today—a rare thing in day-light
hours—as the work of printing the "Midsummer
Harvest Number" will be begun. An
opportunity to witness an interesting op-
eration is offered to our friends and the busi-
ness people of the city, who are cordially
invited to visit the "Times Building" be-
tween the hours of 1 and 5 o'clock this afternoon.
The newspaper press-room has been pre-
pared for the reception of visitors, includ-
ing ladies. The "Presto" will be run at
a speed of not less than 10,000 copies
per hour, and during the afternoon 30,000
copies of the first part (eight pages) will be turned
out.

Organization to Meet Organization.

A good deal has been said in times
past about the organization of capital
as opposed to labor, but in reality there
has been very little organization of
capitalists or employers for that ex-
press purpose, the mutual jealousies
of these classes being greater than
their jealousy of those they employ.
Capital organizes itself into powerful
corporations for greater advantage in
making money, but these cor-
porations are usually at war
with each other, and rarely are warlike either aggressive
or defensive, with labor a special object
in such associations. But in this new
association formed in San Francisco
the presenting of a united front to the
labor unions is the avowed object, and
therefore it is an important new de-
parture. It was bound to come, though
a long time delayed. This is a period
of social and financial combination,
and both capital and labor must
organize. A few years ago many em-
ployers broadly disputed the right of
labor to organize, but none do so now,
and though some workmen may at
present believe that the organization of
capital necessarily means harm for
them, they will soon become accus-
tomed to it and recognize that the
ultimate effect may be rather bene-
ficial than otherwise. As seen by the
above declaration of principles, the
employers make it a point to put on
record their acknowledgment of the
right of labor to combine. It shows
that the world moves, for not so very
long ago such combinations would
have been criminal conspiracies under
the laws.

A Hopeless Case.

"The accident, madam," said the
young surgeon, encouragingly, as he
made his preparations to sew up the
wound in the lip of the infant had re-
ceived by falling down a stairway,
"will leave a scar, of course; but
twenty years from now, when the little
fellow has grown to be a man, and
is called a nussacher, it won't show a
bit."

"It isn't a baby of that kind, doc-
tor," replied the anxious but entirely
self-possessed mother.

WON IN A CANTER.

Kingston's Easy Victory Over

Manager Paces a Mile in 2:11.3-4—
Result of the Racing at Sheeps-
head Bay-Latonia
Events.

By Telegram to The Times.

CHICAGO, Aug. 31.—[By the Asso-
ciated Press.] At Garfield Park in
the match run between Kingston and
Van Buren for \$8000, Kingston passed
the wire in a common canter three
lengths ahead. The attendance was
12,000. Bookmakers gave odds of 4 to 1
on Van Buren and held Kingston at 1
to 5. Hamilton rode Kingston and
Sloan was on Van Buren. The two
started on even terms, and for a half
mile raced like a team. Then King-
ston forged ahead which position he
kept to the end of the race. The dis-
tance was a mile and a sixteenth. The
time was 1:50.4.

On Wednesday Kingston will be
pitted against Marion C. Verge d'Or
and others at a mile and an eighth.
All are in good condition and a great
race is expected.

The other races resulted as follows:
Six furlongs: Pecosdy won, Mabel
H second, Oakdale third; time 1:18.1.
Mile: Maud won, Tamberlane sec-
ond, Joe Woolman third; time 1:47.
Six furlongs: Addie won, Tom Will-
mott second, Yo Tambien third; time
1:17.

Five furlongs: Little Rock won, Tom
Roach second, Craikauk third; time
1:03.4.
Mile: Getaway won, Carns second,
Little Annie third; time 1:44.1.

The Hawthorne races were as fol-
lows:
Seven furlongs: Roseland won, Barney
second, Gliford third; time 1:33.
Mile: Bankrupt won, Dungarven
second, Patrick third; time 1:46.

Handicap, 1 mile and 1 furlong:
Broodwood won, Insolence second, Sil-
ver Lake third; time 1:59.1.
Seven furlongs: Zantupa won, Po-
lero second, Engarita third; time
1:35.1.

Steeplechase, short course: Evan-
geline won, Speculation second, Leader
third; time 3:51.

Records Broken at Independence.

INDEPENDENCE, (Iowa), Aug. 31.—
Records were smashed today as fol-
lows: Pat Downey, who obtained a
race record of 2:18, on Saturday went
against the clock in 2:16. A year ago
this horse was incapable of beating
3:00. His owners value him at \$40,000.
Gates to beat 2:30; paced in 2:27.1.
Muscovite to beat 3:22; trotted in
2:21.3.

Boaz to beat 2:22; trotted in 2:20
flat.
Alis to beat 2:19; trotted in 2:16.1.
Reserve Handicap, 1 mile, paced in
2:22.5.
Allerton lowered his record from
2:12 to 2:11. The quarters were: .33,
1:06.1, 1:39.1.

Manager, holding the three-year-old
stallion record for paces of 2:13, re-
duced the mark to 2:11.

The Latonia Meeting.

CINCINNATI, Aug. 31.—The track
was good.
Mile and 20 yards: Radcliffe won,
Mary B second, First Lap third; time
1:45.1.

Mile: Donnell won, Fannie S sec-
ond, Von Tromp third; time 1:43.1.
Mile and 20 yards: Hopful won,
Hueneme second, Harry Weldon third;
time 1:47.1.

Four and a half furlongs: Hindoo
Gam won, Greenwh second, K. K.
third; time 0:57.

Mile and 70 yards: Allan Bane won,
Pasade second, Nina Archer third;
time 1:46.1.

Sheepshead Bay Races.

SHEEPSHEAD BAY, Aug. 31.—The
day was cool and cloudy and the track
slow.
Six furlongs: Chesapeake won, Worth
second, Arab third; time 1:11.

Five furlongs: Heirloom won, Cakena
second, Fred Lee third, Laugh-
ing Lady fourth; time 1:10.
Mile and 1 furlong: Pessara won,
Now or Never second, Tea Tray third;
time 1:53.3.5.

Six furlongs: Mary Stone won,
Reilly second, Rosa R third; time
1:10.3.5.

Mile: Luella B won, Equimo sec-
ond, Peralta third; time 1:44.
Mile: Waterson won, Eric second,
Belwood third; time 1:45.

BASEBALL.

A Remarkable Eleven-nining Game
at Chicago.

CHICAGO, Aug. 31.—[By the Asso-
ciated Press.] Today's game was a fine
exhibition of scientific playing. Both
pitchers were effective, and their sup-
port perfect. The only error was an
excusable miff by Pfeiffer after a hard
run. The game was called at the end
of the eleventh inning on account of
darkness. Score: Chicago, 0; New
York, 0. Batteries: Hutchinson and
Kntridge; Russe and Beckley.

PITTSBURGH, Aug. 31.—Philadelphia
won by superior playing. Score:
Pittsburgh, 3; Philadelphia, 7.

CINCINNATI, Aug. 31.—Superior
playing gave Boston the game. Score:
Cincinnati, 3; Boston, 5.

CLEVELAND, Aug. 31.—The home
team played an errorless game. Score:
Cleveland, 2; Brooklyn, 0.

BOSTON, Aug. 31.—Boston, 2; Louis-
ville, 2. Called at the end of the fifth
on account of rain.

WASHINGTON, Aug. 31.—Washing-
ton, 1; Milwaukee, 5.

BALTIMORE, Aug. 31.—Baltimore, 6;
St. Louis, 3.

Second game: Baltimore, 4; St.
Louis, 8.

PHILADELPHIA, Aug. 31.—Athletic,
3; Columbus, 1.

Second game: Athletic, 2; Colum-
bus, 3.

UNION PACIFIC.

Important Developments in Its Af-
fairs Expected Soon.

NEW YORK, Aug. 31.—[By the Asso-
ciated Press.]—Important develop-
ments in the affairs of the Union Pa-
cific Railroad are expected this week,
says the Times. A meeting of the re-
cently-appointed Financial Committee,
of which J. Pierpont Morgan is the
head, will be held today or tomorrow
in this city. The probable outcome of
the meeting may be of greater signifi-

SHOTGUN QUARANTINE.

An Epidemic Caused by Two Kansas City Men Changing Coats.
KANSAS CITY, Aug. 26.—(Correspondence.) About the 1st of August two men in a Kansas City saloon exchanged coats on a trade. There is little in that fact to cause comment, but the results of that trade have caused much trouble to hundreds of people in this city and the outlying districts. Just who it was that traded the coats or why they traded will probably never be known. But it is known that a man went to the little village of Atherton, about seven miles from the limits of Kansas City, and was taken down with a disease which soon developed into a genuine case of smallpox. He died after telling that he must have got it from the coat which he wore, saying that he had traded for it in Kansas City. From this the disease spread until thirty cases were fully developed in the little town, and the disease began to make its way among the farmers of the vicinity.

Then the people began to get alarmed, and the adjacent farmers instituted a shotgun quarantine and told the people of the village that they would be killed if they went wandering over the country. The Governor and State Board of Health were called upon to take action, but they were slow. There seemed to be a general indisposition on the part of officials of every rank to take a hand in stopping the pest, and the result is that it is now epidemic over a large part of the Blue River bottom, and has become so great a plague that the United States Government has been called upon to prevent mail trains from stopping at the station to take on mail. The State Board of Health established a quarantine on August 19, but by that time the disease had spread over the surrounding country, and on the day that the quarantine was established, the ex-Confederate reunion was in full blast at Washington Park, which is only a short distance from the infected district. It is reported that several inhabitants of the infected county made their way through the guards and enjoyed the festivities at the park, mingling freely with the old soldiers and their friends.

All the roads leading from Atherton are now guarded by deputy constables, who have full power and discretion to arrest any and all persons passing that way who have not a written permit from Dr. Ravenscroft, who was placed in full charge of the infected district by the County Court. As there are three miles to the limit, and as there are only five roads out, it can be seen that there is a wide territory through which the venturesome residents can pass by going through the woods and fields. That this has been done is no doubt, for people who are known to live within the infected district have been seen enjoying themselves at different gatherings over the country. The disease has already spread beyond the limits of the quarantine, and the health officers will soon be called upon to extend the limits.

Some of the people who were inside the limits when the quarantine was established were much annoyed, and have tried to break through, only to be sent back by the guards with the information that if they came too near they would be shot. The guard stationed on the road leading from Atherton to Blue Mills was afraid to let the people come close enough to show their permits, and compelled all to go back and get out by some other route. A man with his family was feeling from the pest. He had a permit to pass through the lines, but the guard would not let him show it. The man was more scared at the smallpox than he was at the guard, and the result was that in a fight he worsted the guard and took away his gun. The family went on their way rejoicing and the guard sent in his resignation and has been fumigating himself ever since.

WARDING OFF DEATH.

How Asphyxiated Persons May be Resuscitated.

[London Chronicle.]

Col. Henry Esdale of the Royal Engineers claims to have discovered a certain and rapid means of resuscitating persons from the effects of suffocation. A sapper among the men, under his command at Chatham was one day found enveloped in the folds of a half-empty war balloon. The coal gas with which it had been inflated had suffocated him, and to all appearances he was a dead man. But efforts were made to restore him, though the pulseless heart and cadaverous face of the man gave no encouragement to perseverance. In a moment of something like inspiration it occurred to Col. Esdale to send for some tubes of compressed oxygen which had been prepared for the oxyhydrogen light.

This pure oxygen, at a very high pressure, was hurriedly conveyed to the mouth of the prostrate sapper by means of inserting the nozzle of the valve between his teeth and the supply was "gently turned on" to the smallest extent. The effect was absolutely instantaneous. In an instant he opened his eyes and seized the nozzle between his teeth. In short, the sapper not only thoroughly revived within a minute, but in half an hour he walked away, quite well, to the barracks. He refused to go to the military hospital, as was suggested by his commanding officer.

Of course the objection will be raised that everybody has not tubes of pure oxygen lying about in readiness to apply to such cases. Happily oxygen in quantities as large as those administered is not needed, and it can be stored in small, strong bottles made of the finest steel, with a valve giving an absolute hermetic seal. These vessels may be as small as a soda water bottle, and may be made part of the medical stock of every doctor. Oxygen at any degree of compression required can in fact now be obtained, and the whole apparatus for restoring vitality can be packed in a small box quite portable.

What possibilities may not such a discovery as that to which we have drawn attention involve. It is equally available, we are assured, for those persons who have been asphyxiated by choke damp in coal mines or by ordinary coal gas. People apparently drowned and those insensible from long exposure in the rigging of a ship might also be saved from an untimely end by what Col. Esdale calls "a dose of oxygen." It would probably be invaluable, too, in cases of suffocation.

THROOP UNIVERSITY.

Preliminary Steps for Its Organization.

NON-SECTARIAN IN CHARACTER

An Institution That will be a Credit to the State—General News Notes—Personal Mention.

Preliminary steps have been taken to establish a non-sectarian university in Pasadena. This university will be established upon the broadest lines of culture. It will open with a college of letters and science and a manual training school. Other departments will be opened as soon as practicable. For the present year buildings for its use will be leased. The eminent divine, Rev. James H. Tuttle, D.D., of Minnesota, has been invited to the presidency. Other eminent teachers have been engaged. The incorporation papers are being made out and trustees are being selected from various religious denominations and from prominent business men throughout the State.

The object is to build up an educational institution that shall become a credit to Southern California and a benefit to humanity.

This university is to open the first Monday of November, 1891.

This institution will be a noble monument to the memory of its founder, Hon. A. G. Throop of this city, who will devote almost his entire fortune to its founding and endowment.

NEW CITIZENS COMING.

A gentleman in this city recently received a letter from a friend living in Minneapolis, from which permission has been granted to make a brief extract. The writer was here in the winter of 1887-88 and will probably return here to become a permanent resident soon. Here are his comments on the orange carnival:

"I was in Chicago with a party of friends at the time of the orange carnival there. We were all surprised and delighted beyond measure with what we saw there."

"I am now confident that I shall be ready to move to Pasadena this winter, and know of a number who will come to your section, some of them to reside there."

PERSONALS.

Guy Woodward of Lordsburg is in the city.

Capt. Simpson was at Santa Monica over Sunday.

J. E. Doty and wife will visit Long Beach this week.

Mrs. Perry Bonham is home from a visit to Oakland.

E. H. May of the First National Bank is at Santa Monica.

Miss Anna Colia has returned from a week's stay at the island.

George Collis, Ralph Skillen and Fred Ryder are at Catalina.

Rev. J. B. Stewart, D. D., and Mrs. Stewart will arrive here tomorrow to reside.

Mrs. W. E. Arthur and Miss Ornbau will return from the seaside tomorrow.

W. F. Poole and family of Los Angeles were the guests of Mr. and Mrs. Lange Winston over Sunday.

James Campbell, father of City Clerk Campbell, will leave today, accompanied by his wife, for a visit in the East.

Mrs. Almina Smith Smith, mother of Charles A. Smith, is en route for the coast to visit friends in Savannah, N. Y.

Prof. Losen, organist of All Saints' Church, will soon return with his daughter from a pleasant vacation at Catalina.

Dr. J. G. Miller is very dangerously sick at his residence on Columbia street. It is feared that his illness will be a fatal one.

Miss Deborah Shannon commemorated her fourth birthday yesterday by entertaining some of her young playmates at her mother's residence.

Dr. J. C. Michener has purchased for \$10,000 a residence on the corner of Fifteenth street and Grand avenue in Los Angeles. He will, however, continue to reside here.

Hugh Gardner was exhibiting to friends yesterday a box of choice specimens of fruit, including apples, pears, peaches and grapes, raised on a ranch at South Cucamonga.

Mal. Foust, accompanied by his wife and daughter, left for the East, via the Santa Fe, yesterday. The family are friends of Capt. Simpson and R. H. Knight. They expect to return to this city next February.

The annual election of officers of the Pickwick Club will be held this evening.

The school tax election is commencing to be the subject of considerable discussion.

Improvements have lately been made about the grounds of All Saints' Episcopal Church.

Rev. Mr. Holt of Springfield, Mass., preached Sunday at the First Methodist Episcopal Church.

A new floor is being laid in the office on North Fair Oaks avenue formerly occupied by W. E. Cooley.

From two large peach trees in A. O. Bristol's orchard 1000 pounds of peaches were taken this year.

The improvements in the new Masonic Hall are still in progress and will not be completed for several weeks.

Work will commence this week on the construction of the residence to be erected on Grand avenue for Mrs. Bange.

The construction of a new residence on North Los Robles avenue has been commenced. Mrs. Grosbeck is the owner.

All the ostriches at the Pasadena ostrich farm were removed to Los Angeles, as the result of a suit in which they were attached.

The regular monthly meeting of the Pasadena Athletic Club will be held on Thursday evening. Several candidates for membership will be balloted on.

The Executive Committee of the Pasadena Land and Water Company met yesterday to consider the route surveyed for the proposed tunnel at the Devil's Gate. A joint committee of the two water companies will probably visit and inspect the proposed route on some day of the week.

Over 2800 feet of four-inch pipe is now being laid by the Pasadena Land and Water Company on Euclid avenue from Colorado street north.

At a meeting of the local lodge, F. and A. M., to be held tonight, the third degree will be conferred by visiting members of the Southern California lodge.

The trimming of pepper trees along sidewalks is still in progress. Work is still needed along several streets. Street Superintendent Brown is giving the matter his attention.

Mrs. Eliza Cornyn, aunt of Mrs. E. R. Hull, died Sunday. She was 81 years of age. The funeral services will be held at the residence of E. R. Hull, on Waverly drive, Wednesday afternoon at 3:30 o'clock.

The trees of a eucalyptus grove of twenty acres in the McDonald and Brooks tract, near Lamanda Park, are now being felled. The wood has been purchased by the Simons Bros. of this city for use in burning brick.

The suit of I. N. Mundell vs. the West Pasadena Railway Company was today decided in favor of the defendant. The suit was brought to obtain an injunction to prevent the railway company from levying an assessment on their stock. The claim was made, but overruled in the decision, that, as the directors had held over instead of being elected annually, the board was not legally in office and hence could not levy an assessment.

Charles Shaw, representing the Sells Bros. United States shows was in the city yesterday.

The German amateurs of Los Angeles will give a performance at the Turnverein Hall on Sunday next.

Big Ed Kinney of the fire department was one of the happiest men in town yesterday. Cause, a twelve-pound daughter.

The Times press rooms will be open to visitors from 1 to 5 o'clock this afternoon, when the press will be in operation.

Fire Chief Walter S. Moore has returned from San Francisco, where he went to inspect chemical engines and other apparatus.

Coroner Weldon yesterday went to Santa Monica, where he held an inquest on the body of the man found dead at that place Sunday evening.

The supervisors who went to Sacramento to represent the county before the State Board of Equalization are expected to return home on the 5th. They will come by steamer.

Emma Bingham was yesterday fined \$1 by Justice Austin for battery. Mrs. Bingham entered the house of Mrs. Hobbs on Wilmington street and "spanked" one of her children.

A. W. Ceffel, convicted on Saturday of selling infested fruit, was yesterday fined \$5 by Justice Austin. The case of Shepard, charged with the same offense, was continued until September 5.

The Southern Pacific Steamship Company have changed their steamer schedule from today on. The shipmaster of the Pacific will make the southern trips instead of the steamer Corona. The Queen will stop on all way stations except Redondo and Newport.

The Buena Vista street bridge is closed for repairs. There is a great deal of complaint about the matter, but the Street Superintendent will rush the work as rapidly as possible. There is a great deal of travel over this bridge, and the closing is a great hardship.

Articles of incorporation were filed with the County Clerk yesterday by the Lindsey Land Company, formed for the purpose of purchasing, developing, improving and settling lands in Tuare county, with a capital stock of \$200,000, all of which has been actually subscribed. Its board of directors consists of Andrew Gassell, George H. Smith, George S. Patton, Thomas B. Brown and Arthur J. Hurlbutson.

Complaints were filed in the Police Court yesterday by Tomas Lopez and Gus Larrea charging Joe Magretti and Joe Gioi, the proprietors of a corner grocery on Alpine and Ord streets, with having committed the crime of battery. They allege that on Sunday night they entered the grocery and drank with the proprietors, but that their conviviality was rudely interrupted by the Italians who kicked them out of the store.

Preachers Against Boycotters.
(Ventura Daily Observer.)

If there is one foreign importation of the laser sort that is despicable above another it is the boycott. A representative of one of the so-called trades unions waited upon the editor of the New York Christian Advocate and informed him that if he entered a sentiment unfavorable to some of its rules then under discussion they would break up his office. The paper has a circulation of over fifty thousand copies weekly and the plant is none other than the Methodist Book Concern with its millions. The editor informed the messenger of the boycott establishment that he could call in enough Methodist preachers who had been printers to set up his paper at short notice, and the paper wasn't "broken up."

THE RAILROADS.

Report of the Little Los Angeles and Pacific.

THE HOPES OF ITS PRESIDENT

The Southern Pacific's Big Engines—The Denver and Rio Grande—General, Local and Personal Gossip.

President S. N. Lullweller of the insolvent Los Angeles and Pacific, has filed a report of his road with the State Railroad Commissioners. In his preliminary remarks the president states that the road has been in the hands of a receiver for the past year and has been inoperative. An adjustment of the debts of the company is now being made, and it is expected that the road will be operated in a short time. The road was organized August 31, 1888, and the authorized capital stock is \$2,100,000. Seventy-nine thousand dollars worth of 6 per cent. bonds have been issued to cover thirty years. The assets are \$92,444, and the funded and floating debts \$86,000 and \$90,434 respectively. There was spent on construction \$351,327, and the equipment cost \$142,000, making the total \$665,528.

SCRAP HEAP.

A general shake-up is expected on the Denver and Rio Grande road following the resignations of President Moffatt and General Manager Smith.

Assistant General Passenger Agent N. K. Gregory is arranging a cheap excursion to San Diego, by the Southern California road, to include a week's stay at the Hotel Coronado.

The new transcontinental and commodity freight tariff, east and westbound, will go into effect on September 21. The tariff increases the rate on some commodities and lowers it on others. It affects Pacific Coast business exclusively.

It is officially announced that G. W. Luce, general Pacific Coast agent of the Missouri Pacific and Texas and Pacific, has been appointed general agent of the Union Pacific freight department. The appointment will go into effect on September 1.

The rolling stock of the Peninsular Railway has all been unloaded at San Quintin and set up ready for business as soon as the track is laid, work on which will commence this week. There is material enough on all the port to construct the first twenty miles of road.

The five new locomotives recently ordered by the Southern Pacific for overland business will be the heaviest engines west of Mississippi. One will be a 12-wheel freight locomotive with a weight of 144,000 pounds, and the other four will be for passenger service and will weigh 120,500 pounds each. The freight engine will have eight driving wheels with a diameter of five feet, and it will pull in addition to its tender 330 tons over the steeper grades of the Sierras, on ordinary freight time.

A LEAP YEAR SURPRISE PARTY.

Last Wednesday evening occurred one of the most complete, and at the same time most delightful surprise parties ever perpetrated on an innocent crowd of boys in East Los Angeles. The young ladies of that enterprising suburb held a consultation several days before and decided to give their swains a genuine surprise. They hired the hall at the corner of Downey avenue and Hillman street for the occasion and the affair was kept a profound secret. Great loaves of cake, freezers of ice-cream and like dainties were surreptitiously conveyed to the hall, the expenses being adjusted from the pleasurable purses of the young ladies. The young gentlemen were invited to meet at the home of Miss Grace Van Horne, on Workman street, and they appeared promptly on time, the air of mystery about the invitations having roused their curiosity. They were then conducted by a circuitous route to the hall where their eyes opened very wide indeed at the elaborate preparations made for their reception and entertainment. At a late hour the surprised escorted the surprised to their several homes, and now the young gentlemen would like very much to be surprised again. The following made up the party: Mr. and Mrs. Mussey, Misses Mildred, Trus, Anna Buchanan, Mabel Brady, Annie Hollick, Jessie Thompson, Susie Bresse, Virginia Irish, Josie Whitaker, Lizzie Marten, Lena Dixon, Lulu Mussey, Grace Van Horne, and Messrs. Paul Bresse, J. C. Bessell, William Brown, Alvin Bresse, Jesse Berry, Sanford Percy, Clyde Butt, R. A. Buchanan, Frank Messer, Walter Moore, William Shaw, Fred Lee and Arthur Brown.

NOTES AND PERSONALS.

Mrs. Amy C. Brown of Orange is in the city on a visit.

Mr. and Mrs. F. B. Prussia spent Sunday at Hotel Rodondo.

W. A. Hauser has gone to Long Beach for a two months' stay.

E. C. Bosbyshell and wife leave today for a visit at their old home near Council Bluffs, Iowa.

Otto Brodbeck and family have returned from an absence of several weeks in St. Louis.

Mrs. Collins and Mrs. McConnell of Fresno are guests of Mrs. Fuller at No. 627 West Seventh street.

Mrs. George Mason of Grand avenue and Mrs. Chase of West Twenty-third street left last evening for the East.

To Make Perfect.

IN EVERY Receipt that calls for baking powder, use the "Royal." Better results will be obtained because it is the purest. It will make the food lighter, sweeter, of finer flavor, more digestible and wholesome. It is always reliable and uniform in its work.

Miss MARIA PARLOA says: "The Royal Baking Powder is as good as any can be. I have used it a great deal and always with satisfaction."

Dr. Wong Him.

THE first Chinese Physician to practice his profession in this city was Dr. Wong Him. Has practiced here for sixteen (16) years and his cures and successful treatment of complicated diseases is proof of his ability. He belongs to the sixth generation of doctors in his family. A trial will convince you. Office: 60 UPPER MAIN ST. P. O. box 664, Station C, Los Angeles, Cal.

1st became ill five months, paid out large sums of money for doctors and medicine but derived no benefit. Dr. Wong Him was recommended to me by a friend. I did not think I could get well, as my lungs and kidneys were very bad and getting worse all the time. Dr. Wong Him took me in this condition; he has in two months' time entirely cured me, and now I feel it my duty to testify to his ability. I wish to recommend him to the public as an efficient and skillful physician.
